The MAGSWITCH mini multi-angle magnets allow you to work with a great number of angles with one and only product. They stay clean during many years. Once you'll start using the MAGSWITCH mini angles, you won't use any other!

Each of the range's reference offers several common angles: 45°/135°, 60°/120°, 75°/105°, and 90°.

- Mini angle with magnetization/demagnetization
- Once demagnetized, the metal chips fall off
- Adhesion force: 40kg
