- 90° degree welding support angle with 2 Magsquare 400 magnetic blocks included
- The magnets can be moved up and down on the axis and are reversible. Each possess a traction strength of 181kg for a dual holding of the piece to be welded
- Magswitch® patented technology: Simple On/Off switch that doesn't need to be cleaned
- The Magsquares are removable to be used elsewhere and others can be added on the surface for a better holding

Dimensions: 287 x 90 x 287 mm
