Max. Pull strength: 14kg

- 2 magnetic squares (60° and 90°) to hold flat or round metal pieces together during welding or any other assembly work
- Create corner pieces by positioning the magnets on the outside of the angle formed by the pieces to assemble
- Ideal for spot welding on the inside of the angle
- Use the magnetic blocks' outside parts to have a larger angle (120°)

3 possible angles: 60°, 90°, 120°

Dimensions: 83x95x16mm
