DATA SHEET -

Ref. MS2-300

INDICATIVE UNIT WEIGHT
4000 g

See on our website

Must be used for tack welding only and remove before completing welding. Avoid exposing the magnets to heat sources of over 80°C for too long.

- Magnetic block to hold big metal pieces during the assembly and welding. Equipped with 3 magnets, this A-shaped aluminium frame will be particularly useful in industry
- The face of the magnets is machined flat or in a V-shaped in order to hold all sorts of pieces, whether they be round or flat. Each magnet can be independently positionned on ON or OFF depending on your needs.
- Dimensions of the frame: 330x330x32mm
- Maximum pulling strength : 120kg
