- Removable rest for StrongHand Tools welding torches
- Practical and well designed, this torch rest enables you to safely put your torch down and avoid risks of falls
- Its magnetic base is strongly fastened on your work station
- The StrongHand Tools MRT200 torch rest is composed of a removable angle: you can position it as you think best in order to get some space on you work table
- On this torch rest, you will also find a cable hanger so that the torch's cable won't bother you or lie around on the floor
- This version possesses an articulated arm to adjust the height and the inclination of the torch on the rest: thus, you can put it above your workbench or on the side, as you see fit

Height: 180-310mm
